

Welcome to Station-e Language Lab

(Establishment of ICT Enabled "Skills Lab" with Digital Teaching Device)

Station-e is a complete solution provider for Skills Development in India. Recipient of several awards, Station-e has emerged as the nationally recognized training corporation for skills development. Digital Labs, ICT-enable Skills Development Centre, Smart Class Room, and On-Site Training are the defining products which have transformed the learners across the campuses of educational institutions in the country. With 30 ICT-enabled Skills Development Centres across the country, Station-e has the unique distinction of training more than 100000 learners for various life

and soft skills. The institutions which have entered into the association with Station-e range from NITs, State Universities, Engineering Colleges, hordes of higher education institutes and schools. With advanced tech tools and innovative training methodology, Station-e has carved a niche for itself in the skills development arena in the country.

Why Station-e Language Lab

Station-e is a language laboratory envisaged to cater to the growing demand of a large pool of fluent English speaking youths in areas like BPO and ITES in particular and in all walks of life in general. It has conceptualized customized training program based on the latest technological tools and the most advanced training methodology to impart simplified and effortless learning of English. It also provides personalized training for British, American, Australian and Global accent.

Professional work culture, highly experienced faculties and erudite research team, conducive environment and exceedingly high standards are the key factors for the acclaimed success and the increasingly widening presence of Station-e across India.

Station-e is a fast emerging chain of language labs epitomizing a new era of training in communication skills.

ICT-Enabled Skills Lab

ICT-enabled Skills Lab is an innovative skills development concept. It comprises training modules on life and soft skills such as Communication Skills in English, Leadership, Team Work, Goal Setting, Adaptability, Personality Development etc. It serves to provide hands-on training in an interactive manner. With role plays, discussions and activities, learning becomes learner-centric in Skills Lab. As the name suggests, it is completely ICT-enabled. Skills Lab is fully powered by a set of next generation tech tools. Modules are transacted using the high-end equipment and technology-aided processes. Learners can keep track of their learning and progress can be monitored with the help of the tech tools used. In all, ICT-enabled Skills Lab caters to the skills development needs of the youth for enhancing their soft skills and rendering them readily employable.

Digital Teaching Device

Station-e has evolved an indigenous model of Digital Teaching Device. It consists of a set of advanced tech tools combined to create a learning-driven skills development. The Skills Lab consists of a lab with a digital console that processes all the modules and all the activities and tasks are routed through it. It is connected to a Plasma TV for playing videos and re-playing learners' performances. It also serves to produce and re-produce, at any given point in time, the graphic representation of the learners' voice modulation, articulation of sounds and speech rhythm and intonation. Embedded in a lab set up, Digital Teaching Device is a combination of technological innovations and its creative re-configuration for skills development.

Our Vision

To redefine and innovate training on life and soft skills in India and empower the generation next. It is an age defined and re-defined by innovation. Every domain of knowledge is being re-invented through the magic wand of innovation. We intend to innovate every process of the domain we belong to-training. We wish to conceptualize and practice the innovative ways of content design, training methodology and technology-defined modes of learning. We wish to test the outer limits of innovation and discover the old truth which is ever new that there are no limits.

Our Mission

To provide training to all the segments of society on life and soft skills and upskill the nation for the challenges of the global workplace. We intend to establish centres of soft skills and language learning across the country and beyond. We wish to establish skills development centres across the institutions of higher learning and organizations pertaining to business and industry. We wish to play a vital role in bridging the skills gap and enhancing the skills for the 21st century demands and challenges for Indian education and business. We shall reach out to every student and every professional for the skills enhancement of India for its rightful place in the world.
